Bob Jones has great curriculums and this one is no exception. Covered by skillful writers and editors we will dive through US History through a conservative point of view, meaning have to learn skills to go through the bias and form our own opinion.

### Time to Settle

London & Plymouth Company

The only thing you'll hear from the Plymouth company is that it settled in Maine after it was sent to settle between 38 and 45 Northern Latitude. When winter came it proved to be too cold for them and most of them left back to England.

The notable to remember is the London Company, who is later renamed the Virginia Company. They came with a small amount of people and settle in the Chesapeake Bay. The very same area you live right now, is the the start of America.
